Changes in the Individual Market: Plan Year 2022

AHCT: Connecticut's Health Insurance Exchange

- At AHCT, individuals and families can shop, compare and enroll in quality healthcare plans from brand-name insurance companies
 - It is the only place in Connecticut where someone can qualify for financial help to lower the costs for health insurance
- In order to offer Qualified Health Plans (QHPs) in the Individual Market through AHCT, insurance companies must agree to offer “standardized” plans
 - In a standardized plan, AHCT specifies the cost sharing (plan deductible, copays and coinsurance) for certain plan features and services
 - AHCT has historically designed plans that are “patient-centered” to help improve predictability of and keep out-of-pocket costs low for high-value services, including Primary Care and in some plans, a separate deductible for prescription drug coverage that is waived for generic (tier 1) drugs
 - Standardized plan designs promote transparency, ease, and simplicity for comparison shopping by consumers
 - In these plans, cost-sharing for a key set of benefits is uniform across the carriers and consumers can differentiate the plan through its premium, provider network, drug formulary and features such as mail order drug coverage
- Insurance companies are permitted to submit non-standard plans, which provide for additional consumer choice through the offering of options such as ‘in-network’ only and ‘tiered’ network plans or plans with a narrower network of primary care providers

Medicare Populations

- **The highest percentage of AHCT's QHP enrollment is made up of adults age 55-64**
- **Things to note about QHP enrollment and Medicare coverage:**
 1. AHCT will not automatically terminate QHP when someone becomes eligible for Medicare
 2. Once Medicare eligible, no longer eligible for APTCs
 3. Exchange qualified health plans are not Medicare supplements. Medicare eligible clients may be better served by Medicare supplement plans.

COBRA Reminders

- Employees who are losing coverage through their employer are usually offered COBRA coverage
- Access Health CT is an option for these employees (SEP)
- AHCT Training Dept. offers presentations to organizations as an option to learn more about what's offered through AHCT

Important notes for those considering COBRA

- Know the deadlines and when to enroll
- Understand the full cost of COBRA before enrolling (without employer contributions)
- Consider options on Exchange before taking COBRA

The American Rescue Plan Act

- The American Rescue Plan Act of 2021 (ARP) signed into law on March 11 by President Biden, will make health insurance coverage more affordable and accessible for many residents by virtually eliminating or vastly reducing monthly payments (premiums) for many people with low and moderate incomes who enroll through Access Health CT; and providing new financial help for people with somewhat higher incomes who can face high premiums.
- Financial help available through Access Health CT will be significantly greater for people at virtually every income level. Many people who buy their health insurance through Access Health CT will become eligible to receive increased financial help (known as premium tax credits) to reduce their portion of monthly premiums or may be eligible to receive financial help for the first time.

What to know about Premium Tax Credits & Eligibility

To qualify the consumer:

- Must enroll in coverage through Access Health CT
- Cannot be eligible for other affordable healthcare coverage through your employer or a government program, such as HUSKY Health (Medicaid/CHIP)
- Must be a resident of Connecticut and not in prison

Individuals or families are eligible for financial help, or Premium Tax Credits* (PTC), based on:

- Annual Income: Household's total expected income for the year
- Household size: Total number of people in the household that file taxes together

The American Rescue Plan Act (cont.)

- Residents can act during a Special Enrollment Period from May 1 – October 31, 2021. Many current customers will see lower monthly bills.
- The average savings per household will be \$116.05 per month, or \$1,392.57 per year
- Households with annual income over \$51,040 or 400% of the Federal Poverty Level (FPL) will be newly eligible for financial help through Access Health CT and will see an average monthly savings of over \$500 per month or \$6,200 per year.
- Taxpayers that are eligible for or that collected Unemployment Insurance (UI) benefits at any time in 2021, will be automatically considered to have an annual income at 133% of the Federal Poverty Level (\$12,880) and will be eligible for a nearly \$0 premium benchmark silver plan with comprehensive cost sharing subsidies this year.

The Covered Connecticut Program

- Beginning July 1, 2021, Connecticut residents that meet specific eligibility requirements could be paying \$0 for their health insurance coverage through Access Health CT, thanks to the new Covered Connecticut Program created by the State of Connecticut.
- The State of Connecticut will pay the consumer's portion of the monthly premium directly to insurance companies (Anthem/ConnectiCare) and will also pay for the cost-sharing amounts (deductibles, co-pays, co-insurance and maximum out-of-pocket costs). The State will pay any cost-sharing for covered drugs. Eligible consumers will have \$0 premium and \$0 out-of-pocket expenses for covered services.

Eligibility Requirements:

Parents/caretakers, and their tax dependents who:

1. Have a household annual income that is greater than 160% of the Federal Poverty Level (FPL) and is less than or equal to 175% of the Federal Poverty Level (FPL)
2. Have at least one dependent child in the household that is under the age of 19. Children age 18 must be a full-time student in secondary school.
3. Be eligible for APTCs and Cost Sharing Reductions
4. Use 100% of their APTCs and CSRs along with the expanded American Rescue Plan financial assistance
5. Be enrolled in a Silver Level Plan

Medicaid Extension

Currently, HHS has extended the Public Health Emergency (PHE) period through the end of the calendar year, to December 31, 2021. Based on the extension, eligible individuals will have their Medicaid/CHIP coverage extended through December 31, 2021 in HIX and ImpaCT.

However, it is possible that the PHE period may be ended anytime prior to December 31, 2021, which would also end Medicaid/CHIP coverage for individuals prior to December 31, 2021.

- **Exceptions to the Medicaid Extension to Dec 31:**
- **voluntary termination**
- **relocation outside of CT**
- **ineligible immigration status after completing a SAVE verification**
- **age-out of HUSKY B**
- **death**

Updates on the HUSKY ext. can be found at: <https://portal.ct.gov/HUSKY/Special-information-and-resources-for-HUSKY-Health-members-about-coronavirus>
